(Food prepared in our kitchen may contain allergens, please make the team aware of any allergies on ordering and we will do our best to accommodate you.)

Sustainability and provenance are the building blocks of what we do here.

It is important for us to build relationships and trade directly with local farmers and producers who support our values of regenerative farming. Our meat is pasture fed, free range or wild and butchered here in house. We have a robust fish sourcing policy focusing on small boats and sustainable catch methods. Our vegetables are sourced seasonally or organically using local suppliers and Growers. Pasta and bread are made in house daily with organic and regenerative flours.
